Notice : Precaution of Phone Scams

In view of the recent surge in phone scams cases, our Bank calls on the public to remain vigilant and be on guard against phone scams. No government or department of any country or region requests individual transfer or remittance by phone. If you receive such a call, please report to the police immediately. You should not disclose any personal information to any request of a dubious caller.

Please alert your family members and friends, especially the elderly and the mentally handicapped, to the surge in phone scams and advise them to stay vigilant to possible phone scams.

Thank you for your kind attention.

Best Regards

Banco Delta Asia S.A.
